SECTION C

DESCRIPTIONS/SPECIFICATIONS

C-1 SCOPE.

It is the intent of the Government to repair ____ONE____ alloy cast steel dredge pump casing by welding, hardfacing and machining to prepare them for replacement for the ones currently in use on the Dredge POTTER. The pump casing consists of one(1) lower section, one(1) upper section and one(1) discharge section. All work shall be completed in accordance with the reference drawings and these specifications. The Contractor shall be responsible for the shipping costs of the dredge pump shell from the U.S. Army Corps of Engineers Service Base, Foot of Arsenal St., St. Louis, MO 63118 and return of the rebuilt pump casing to the same address.

The contractor shall provide all necessary labor, materials, services and equipment to perform and complete the work listed in this specification. The contractor is responsible for properly staging and coordinating the work listed herein to ensure it is completed within the time frame as specified in Section F.

Upon completion of the repairs specified herein, the pump casings shall be ready for installation without requiring further rework.

SITE VISIT.

It is recommended that potential bidders inspect the casings since failure to do so will not relieve the contractor of the responsibility for performing the repairs necessary to restore the pump casings to the satisfaction of the Contracting Officer's Representative (COR). Pump cases are presently located at the U.S. Army Corps of Engineers St. Louis Service Base, Foot of Arsenal St. St Louis, MO 63118. Point of contact is Art Basuel, telephone number: 314-263-4712, between the hours 0900AM – 1100AM, Tuesday and Wednesday, starting _11/07/2006 to ____11/08/2006.

C-2 CONTRACTOR REQUIREMENTS

The specialized nature of the work described herein necessitates that award of this contract will be made only to a bidder who can demonstrate satisfactory completion of similar work. **The Contractor shall be regularly engaged in the rebuilding of dredge pumps casing and shall provide details of experience on a minimum of three projects similar to this one, with a successful service performance within the past 5 years.** Rebuilding of the pump cases is a specialized task that can cause potential loss to the Government should the pump cases become warped or cracked due to improper repairs.

C-5 **CHEMICAL PROPERTIES AND MATERIAL REQUIREMENTS**

- a. The chemical characteristics of the casting as originally specified are:

Carbon.....0.30 – 0.40 %	Manganese..... 0.30 – 0.60%
Chromium..... 1.25 – 1.75%	Nickel.....3.25 – 3.75%

- b. Material used for build-up of pump casings shall be low carbon alloy steel with a deposited Brinell hardness of approximately 250. Material shall be Mackay C, BU-Cl, or approved substitute.
- c. Hardfacing wire shall be suitable for the intended service. It shall be a high carbon, chromium alloy steel. Hardness in second layer, as-deposited, shall be a nominal 41 Rockwell C. Material shall be Mackay Co. 244-0 or approved substitute.

C-6 **PRELIMINARY WORK**

- a. Upon receipt, check the pump casing to determine if casing is distorted. Report all findings on a written Condition Report to the Contracting Officer's Representative (COR).
- b. The outer surface of each pump casings shall be sandblasted to remove all rust, paint, and other material. The exterior shall be given a coat of white enamel paint in accordance with Federal Standard 595-B, Color ID #27880.
- c. **The contractor shall check the annular faces on the pump casing for distortion and parallelism. Record of this check shall be submitted to the Contracting Officer or his/her representative.**
- d. Contractor shall fabricate four plywood templates based on the drawing dimensions to show the initial extent of wear in the pump volute at four places. Checks may be witnessed by the COR to judge the completeness of the rebuilding. Templates shall remain the property of the contractor upon conclusion of the contract.
- e. Pump casings have been rebuilt by welding before and have subsequently been used in service. All deteriorated hard facing and build-up material shall be removed to gain access to the base metal or existing build-up material that is satisfactory for overlay. Removal of hard facing and/or build-up material shall be by means of air-arc gouge followed by grinding for slag and carbon removal.
- f. The pump case shall be accurately weighed and certified before and after welding of the build-up material, and before and after installation of hard facing. **The contractor shall notify the COR 3 days in advance prior to weighing of the pump case.** A report referencing the certified weights and serial numbers shall be furnished to the Contracting Officer Representative **3 days after weights are determined.**

C-7 WELD PROCEDURE

a. Prior to welding, if the ambient temperature is below 80 degrees Fahrenheit each pump casing shall be preheated to 100 degrees Fahrenheit by means of electric strip heaters placed around the outside of the casing. The casing shall be covered by heat insulating blankets to minimize local cooling. **The contractor shall check the preheat temperature and record this in his/her report.** Welding on each case shall be as continuous as practicable but in any case the preheat temperature shall be maintained until all welding has been completed. The contractor shall be responsible for the welding procedure in order to insure that the pump casings are not distorted during his/her work on the casing.

b. Internal shoulders of casing bores and discharge turning sections shall be filled with build-up material and machined to the **dimensions of the Reference Drawings in paragraph C-4**, to the extent required to prepare for the final hard face overlay.

c. Apply hard facing to the entire interior surface of the pump casing to result in an approximate total hard face thickness of 0.5625". This shall be accomplished in no less than three passes.

d. Upon completion of all welding, the pump casing shall be bundled in heat-insulating blankets, the temperature shall be maintained at 100 degrees Fahrenheit for a minimum of two hours and then allowed to cool slowly to ambient temperature.

C-8 MACHINING

Upon completion of welding and cooling of the pump casings, check for distortion as follows:

a. Check both bolting faces of each casing for distortion of the bolting faces. Bolting faces shall be checked for parallelism and verified by the COR. The contractor shall submit a written report of these findings to the Contracting Officer **within three days**.

b. Annular clearance gage and bore of pump casing shall not exceed 0.125". **The contractor may add or remove material in order to meet this requirement.** . The rebuilding of the pump casings shall be checked by **using** the plywood templates, **described in paragraph C-6(d)**, in the pump volute and demonstrating that repairs are complete. This will demonstrate that not too much weld material has been added.

c. Any deteriorated bolt holes shall be restored to **dimensions shown in the Reference Drawings, Paragraph C-4**. Bolt holes shall be welded, drilled and retapped to original. "Heli-Coil" or other similar threaded inserts are not acceptable forms of repairs for deteriorated bolt holes anywhere on the pump casings. Upon completion of this work, clean all bolt holes, coat threads with grease., and protect them with threaded plastic plugs. The plastic plug shall be fabricated from plastic stock and have machine heads to enable removal and re-use. Also, restore bolt holes and flanges on the discharge side of pump casing. Install plastic inserts after flanges and bolt holes have been prepared to reference drawing dimensions.

d. All machined surfaces shall be machined in accordance with the **Reference Drawings in paragraph C-4**.

C-9 CLEANING AND PAINTING

After all work is completed and inspected, the pump casing shall be cleaned of all loose weld slag, paint, dirt and other debris. The outside of each pump shall be painted with final coat of white enamel paint in accordance with Federal Standard 595-B, Color ID #27880. All machined surfaces shall be covered with one coat of preservative. No painting is required on the inside of the casing.

SECTION D

Stencil markings shall be in fade-resistant paint, 2" high and legible.

In order to aid in identifying the repaired casing at a later date, the casings shall be marked by "weld writing". The writing shall be near the top of each casing, 1-2" high and state the following information.

- *Serial Number of the Casing:

Inspection of the dredge pump casing repairs maybe made by the Contracting Officer's Representative (COR) during any stage of repairs, including, but not limited to, weight checks and inspections of prepared surfaces prior to weld repair.

However, these inspections shall not in any manner or form preclude the contractor from establishing a quality assurance program or inspection procedure to ensure complete and strict conformance to the specifications. Inspection will be made by the COR at the repair facility prior to shipment. Any repairs not in accordance with the specifications will result in rejection of the repairs. The contractor shall notify the COR of the date on which the dredge pump casings will be ready for inspection a minimum of ten (10) working days prior to the date.

CLAUSES INCORPORATED BY FULL TEXT

52.204-7 CENTRAL CONTRACTOR REGISTRATION (JUL 2006)

(a) Definitions. As used in this clause--

Central Contractor Registration (CCR) database means the primary Government repository for Contractor information required for the conduct of business with the Government.

Data Universal Numbering System (DUNS) number means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

Data Universal Numbering System +4 (DUNS+4) number means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same parent concern.

Registered in the CCR database means that--

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and

(2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record ``Active". The Contractor will be required to provide consent for TIN validation to the Government as a part of the CCR registration process.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the offeror's name and address

exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number--

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com>; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and Zip Code.

(iv) Company Mailing Address, City, State and Zip Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)(1)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling 1-888-227-2423, or 269-961-5757.

(End of Clause)

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (SEP 2006)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(k) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers:

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an

offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) Title. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). (d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the term of the Government contract, by the contractor, by law, or by the nature of the work there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorize representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employee performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
